TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Data Visualization (Power BI).
- **Backend:** Python (Django, FastAPI), Node.js, REST APIs, App Script, OAuth, Razorpay Integration.
- **Database:** PostgreSQL, MongoDB, MySQL, Redis, Pinecone (Vector DB).
- **Cloud & Tools:** AWS (EC2/S3), Vercel, Render, Google Cloud (GCP), Git/GitHub, VPS.

WORK EXPERIENCE

Full Stack Developer

Sep 2025 – Present

RINGPASS SERVICES PRIVATE LIMITED

- **Full-Stack CRM Development:** Spearheaded the development of a secure CRM portal using **Next.js** and **PostgreSQL**, implementing robust OAuth authentication and automated onboarding workflows.
- **AI & Backend Architecture:** Architected an autonomous AI multi-agent system utilizing **LangChain**, **FastAPI**, and **Pinecone** vector memory to execute complex automated tasks and decision-making.
- **Third-Party Integrations:** Orchestrated complex integrations including real-time webhooks for data flow and deployed secure payment gateways like **Rozgar Pay** for automated financial transactions.

Backend Developer

Aug 2023 – Sep 2025

Phero Health Care Pvt Ltd.

- Designed and optimized scalable backend architectures using Django and Node.js to handle healthcare data.
- Managed and migrated relational and NoSQL databases (MySQL & MongoDB) to improve query performance by 30%.
- Deployed application modules on AWS EC2 instances and managed server configurations for secure data storage.

Data Analytics Simulation

May 2024

Accenture (Forage)

- Cleaned and modeled 7+ datasets to uncover content trends; presented insights via data-driven storytelling.
- Power BI is used to create interactive dashboards, identify the top-performing categories, and present data-driven recommendations to stakeholders.

TECHNICAL PROJECTS

Nexus AI Engine

[\[Live Demo\]](#) | [\[GitHub\]](#)

- **Multi-Agent Orchestration:** Engineered a complex workflow using **LangGraph** and **LangChain** to coordinate specialized agents for autonomous task execution and decision-making.
- **Hybrid LLM & Vector Memory:** Integrated **Groq (Llama 3)** and **OpenAI** for optimal speed and accuracy, alongside **Pinecone** (Vector DB) for storing and retrieving historical context.
- **Production-Ready Backend:** Built a high-performance REST API using **FastAPI** with **Tavily Search** for real-time intelligence, deployed securely on **Hugging Face**.

Full-Stack Authentication & CRM Portal

[\[Live Demo\]](#) | [\[GitHub\]](#)

- **Secure Authentication & OAuth:** Developed a robust auth system using **Next.js API Routes** and **PostgreSQL**, featuring Google OAuth for seamless login and Bcrypt.js for encryption.
- **Automated Credential Delivery:** Integrated **Nodemailer** to build an automated onboarding workflow that generates and emails unique login credentials to users instantly.
- **Dynamic Data Management:** Optimized user sessions using **HTTP-only cookies** and PostgreSQL relational queries to fetch personalized dashboard data.
- **Payment Gateway Integration:** Integrated **Rozgar Pay API** to enable seamless secure financial transactions and real-time payment status tracking.

EDUCATION

B.Tech (Computer Science)

2019 – 2023

Rameshwaram Institute of Technology and Management

CGPA: 8.05/10

Higher Secondary (12th)

2018

U.P. Board

CERTIFICATIONS

- Python Programming – IIT Kanpur
- Google Analytics Individual Qualification
